Listen to Dolce Vita on Soundcloud 

Towards the end of 2007, Claudio Pallaro and Gary Brunton launched an invitation to thirty or so musicians from the Paris area to meet up weekly in order to exchange musical ideas and to create new music collectively.

The jazz workshop quickly became known as The PB (the band leader's initials) and collaborated in performances with other forms of artistic expression: dancers, painters, actors and slam poets. Henceforth, The PB is dedicated to composition and arrangement for wide ranging musical projects.

The PB also offer multi disciplinary educational workshops for musicians and dancers in conservatories and associations in the Paris area. (including residencies, masterclasses, compositional work, presentations in primary and secondary schools)
